

Experiencing Miracle II Soaps

I had surgery in June and when I didn't get better due to infections on the scar itself and internally, I got some soap and neutralizer from a friend who lives around the block. I started drinking the neutralizer and bathing in the soap. When I went back for a check-up two weeks later, my doctor couldn't believe how well I healed. I didn't want to take any more antibiotics because that was their only solution to my problems. Internally the infection went away. Now that I take it all the time, things have been much better. However, I want to add that over the month of December, with all the hustle and bustle, I was not taking my neutralizer in juice and lo and behold, I now have another infection. Now I know M2 works and I have started back on it and hope the infection clears up. I don't know what makes it work, but it works for me and that's important since I'm sick of medicines.

Thanks a lot for your program,

S. J.

Fredericksburg, TX

- 1. We use ½ cap of the soap and ½ cap of the neutralizer to clean our humidifier. It works perfectly, with no health problems. We put a little water in the reservoir and rinse it well.**
- 2. I have had dry scaly skin for as long as I can remember. I am 65 years old. I bathe in 1 cap of moisturizing soap and 1 cap of neutralizer in the bath tub in the bath tub and my skin is smooth and even my feet that were calloused, cracked and bleeding are smooth.**
- 3. When we get the first sign of a scratchy throat, we put M2 gel on the tongue and let it dissolve. The sore throat is gone.**
- 4. My mother had a white shirt that she got some grape juice stains on it. I tried all my cleaners and then I put M2 soap and neutralizer on it and let it dry a little and then the stain was gone.**
- 5. We bought 11 twigs with a high mortality rate. We had two that were still alive, but one was starting to die and down to 3 inches tall. I started pouring the cat's water that had only a couple squirts of M2 neutralizer in it, on this twig. Today it is very sturdy, almost 3 feet tall and needs no support.**

Your Friend in Christ.

Keansburg, CO

On January 16, I received my first starter kit of Miracle II. I had a month old carbuncle behind my ear where my glasses sit. I treated it without success. I placed a drop of full strength MII soap on it. The next day it was completely gone!! I praised our Heavenly Father and then I thanked Clayton Tedeton and for Joyce & Dave. This product is truly a miracle. I've been sharing it with my family and friends.

Your friend,

M. L.

Eaton, OH

Thank you for the work you do to get the truth to the masses. My wife and I took an electrical hit to our satellite system. Blew it out! The new one we got gave us the possibility to hear the Genesis Network. Never heard of it before, but here's the neat part. You guys push the Miracle II product, and no one else does.

I'm sort of messed up. 11 ruptured disks from my neck to my lower spine. I'm a retired mason contractor. Surgery isn't even a possibility due to several degenerative conditions. I have no drugs available, as I am highly allergic to nearly all man made drugs. My knowledge of herbs and their uses have taken the edge off the pain. About a month ago, my wife purchased the starter pack of Miracle II. I use it as directed with one exception. After showering one day, I put some of the neutralizer on my neck over the area of the first vertebra. Now I can function near normal for 3-5 hours with little pain. I don't know how MII works, but I'll tell you it does.

I've had major pain from nerve damage in my neck going into my shoulders, arms and hands. By putting the gel on the back of my neck, I get almost total relief for about 5 hours a day, reapply and the time is extended. I've tried more things than you can imagine, but MII products get right to the nerves in my neck and take the pain away.

We've got an old lap/shepherd mix dog that got himself in a fix a few years ago, and he doesn't walk so good anymore. I figured if it works on me, what the heck. I've been slipping a couple of drops in his water. He's walking a lot better now as well as, he's regained most of his back quarter balance. We're telling everyone about Miracle II products. Hopefully they'll get smart and use it as well. People are very leery about soap products around here as this is where Amway Soap came from.

Sincerely,

J. & K. K.

Scottville, MI

In March I ordered a gallon each of the MII soap and neutralizer and you gave me the 8oz. gel as a bonus. I've really been thrilled with Mirade II and here is a list of how this product has helped me.

- 1. I noticed long before MII that the air didn't seem to be as pure as I could remember when I was younger. Within three days of using 1 cap in the bath water and 7 drops of neutralizer in a glass of water, I noticed two distinct happenings! a) The air I breathe seems to be more pure; b) I have more energy!!!**
- 2. Within three days the stiffness in my knee went away and has not returned. Prior to MII, about a year ago, I noticed a full feeling like water behind my knee whenever I stepped over anything.**
- 3. About 15 years ago I used to raise flowers for sale to the florist. Because my back would get fatigued, I crawled on my hands and knees planting bulbs and weeding the flowers. This activity resulted in calluses on the back of my right hand. As I have aged (56 years) the skin on the back of my right hand had wrinkled whenever I stretch my fingers out my skin would look like an accordion. Now when I stretch out my right hand, it looks just like my left hand. And I believe it softens the skin.**
- 4. My toenail fungus is slowly clearing. I am not cured yet, but I believe in time the fungus will disappear.**

I'm saving my most exciting testimony for now. My friend hunts deer on our farm in exchange for repair work on our equipment. He was bitten by a brown recluse spider on a Thursday. I saw him two days later and asked how he was. He said he was OK except for his right hand, which was very swollen and he had a necrotic brown spot where the spider had bitten him. It was very apparent that he could not use his right hand very well. I shook my head and said, "That looks bad". He had been to the doctor and been treated with antibiotics. He was still experiencing mild discomfort. As soon as I saw his predicament, I thought of Miracle II gel and I told him to stop by the house.

I put some gel on his bite and told him to rub it in, and within two minutes his exact words were, "it's drawing the puss out!" He thought the gel contained aloe because the discomfort instantly went away. Before he left the house, I gave him some soap and neutralizer to soak the bite. He went back to his doctors and told him what he had done. The doctor told him to keep on doing what he was doing. His wound completely healed within a three-day period.

Sincerely,

W. B.

Strawberry Plains, TN

I have three testimonies. The first was when my adult son threw some gasoline on a wasp's nest in my backyard. Some of the gas fell in his face and into his eyes. They were bloodshot. He rinsed his eyes first with water then he put in Miracle II neutralizer. Within one minute he was able to open his eyes and the bloodshot condition was decreasing.

The second one or two days later, my granddaughter's five-year-old brother came to me. He was crying and couldn't open his eyes. I put two drops of neutralizer in his eyes and about a minute later I put two more drops into the affected eye. About two minutes later he was able to open his eye and stop crying. His mother told me later that evening about two hours after the incident occurred, a small sliver of wood came out his eye. I believe the Miracle II worked it out.

The last one happened about two weeks later when my husband was on his back under the truck spray painting when some of the paint fell in his eye. He rinsed his eyes with water then put some MII neutralizer in the affected eye. Within one or two minutes the pain stopped and the redness decreased.

By the grace of God, in all three occurrences, the eyes returned to normal with no apparent eye damage or loss of eyesight. I just thank the Lord for Miracle II.

M. W.

Pasadena, MD

Last summer I started using Miracle II soap and neutralizer and continue to because it's so terrific. I've had great time experimenting and have enjoyed great results. It's now my main soap, shampoo, toothpaste and the best cleaner for our shower doors, tile and all around bathroom cleaner. It really gets rid of the stubborn water spots and scum that nothing else ever worked on before. I put neutralizer in our four cats' water and our two dogs' food. I put neutralizer in our juice and water. One of our dogs has had a recurring rash on her abdomen. After trying various prescriptions from our vet, the round of daily antibiotics got rid of it and the Miracle II soap and neutralizer are keeping it away, which has always come back before. I keep a gallon of each on hand now.

God Bless You,

F. S.

Recently, when I got a haircut at the beauty college, the girl kept remarking about my "healthy hair", and asked what shampoo I used. I explained that I was using Miracle II moisturizing soap, and it gave me a chance to talk about it. A friend

said that she burned her tongue and immediately rested it in a spoon of the neutralizer and the pain went away like magic!

We love `ya,

M. J. H.

Gladstone, MO

Here's a Miracle II testimony that no one will believe because I still can't believe it my self. It's not even one of the list of maladies I told you about when I first wrote you. For over three years I've been suffering with what I can only describe as a "collapsed right sinus". Even at the best times, very little air would get through it, and the inside of the nostril felt bumpy (I guess swollen) in several places. But the worst part about it was every time that I would lay down and tried to sleep for any amount of time, I would have to spend up to two hours trying to blow out what seemed like gallons of stuff out of my head. The ratio of fluid from my right nostril to my left one had to be 7 to 1. It just keeps coming, but would never get it all out. Well less than a month ago, the very day that I received the product that you so graciously sent, the very back of my throat was feeling a little scratchy. So I decided to put a little of the neutralizer in a mist bottle and let it drip down the back of my throat while I laid down and tried to rest. After a minute or two I had to blow my nose. Nothing-unusual there. I lay there a few more minutes and thought, "wait a minute, something's not right here". So I blew my nose again, but nothing was there. And all of a sudden I realized that I could actually breathe through my right nostril. I couldn't believe it, and passed out, fully expecting to wake up dying as usual. For years I tried everything I could possibly think of, short of deadly over the counter chemicals, from the pharmacy to help fix the problem. Well praise our Master, the Lord Jesus Christ!! After only two squirts of neutralizer, not only can I breathe equally out of both sides of my nose with no problems, but also the inside actually feels smooth again.

Thank You so much,

D. K.

Nashville, TN

I have been using Miracle II since 11/27/01 and within three days I began to experience relief from constant fatigue and pain over the last six years. I quit the medication doctor's had me on for about a year. I was passed around among them like a football. Ten to fifteen different kinds of medicine for pain, FM, chronic fatigue, and of course Prozac because I had to be nuts because the doctors had no answers. I asked God the Father to help me, and I began using Miracle II. Mental confusion and lack of concentration, now mind much clearer. Pain and fatigue levels were a 10+, now it's 0. Now I feel twenty years younger. I could barely walk on the bottoms of my feet. I can now walk with ease, and I put my cane

away. My joint pain was gone within three weeks. My problems are too numerous to list, so I'll stop. I wish I could buy this a take it to every nursing home and sick person.

Love & Blessings to all,

J. D. H.

Newburg, MO

This letter is to let you know how much we need and use Miracle II products. As I told you in my previous letter, I was exposed to Ion Radiation during military operations in the Korean Conflict and tests at desert Rock Nevada. The products are working! You can see the difference in my skin, on my ears, nose, neck and other parts of my body. Not all has disappeared just yet, however I know it's helping me. This product is truly a MIRACLE!! My wife is replacing all commercial store products with your MII products. She vows to never use anything else, and she's sending your catalog to members of our family and telling them about the wondrous results. I'm certain she will convince them to try some of the MII products.

Testimony time! I burned my hand and wrist with hot, straight from the oven apple pie syrup. My husband squirted this gel on it, and the pain immediately stopped. I asked him what was the "magic stuff"? He said that it was neutralizing gel. He had been talking to me for months about your product, and I said finally to go ahead and get it. He did, and not only did the pain go cease, but the burn healed quickly. If you've ever tipped a HOT fruit pie while removing it from the oven, you know that it can get ugly. My daughter tried soap because I insisted, and she loves it too.

Thank you a lot,

G. M.

Lincoln, AR

I used Miracle II moisturizing soap on my cat! She likes to go out and roll around in the dirt. Then she wants me to pet her afterwards. I hate petting her when she's all dirty. After rolling in the dirt I put some MII soap on a washrag and wiped her off. After she dried off, her fur was so soft and she wouldn't leave me alone! She hasn't rolled in the dirt since. Whatever was bothering her causing her to roll in the dirt is no longer a problem. She loves the soap and so do I.

I'm a paraplegic (motorcycle accident) and have been in a chair since 1972. I've had a lot of aches and pains in my neck and arms for the past ten years.

Every day I woke in pain and was in pain all day. It never went away. After hearing the testimony of a MII user on your show telling how drinking the neutralizer relieved his/her pain, I decided to try it. I bought the super start up pack. Drinking the neutralizer really works!!! Most of my pains were gone in two days!! PRAISE GOD!! Thank you very much for introducing me to the Miracle II products!! I'm not taking 6 Ibuprophen tablets two or three times a day anymore!! What I save on painkillers will pay for the MII products. Love your show and thanks again!!

Love,

R. B.

Illinois

I've been using the Miracle II products for almost 2 wks. I put the neutralizer in an eyedropper to treat my cataracts when my eyes are burning and irritated, as they have been for months. A couple of drops immediately stop it. I think my vision has gotten a little better, too. I `m using 1/2 oz neutralizer in juice daily for weight loss and the moisture soap for body soap and shampoo then spraying all over with neutralizer. My skin and hair already show big improvements. A spot on my face that I was a little concerned about is completely gone.

Sincerely,

Denise

Oroville, WA

had traveled with my husband to his jobs every year since 1983. We drove from Oklahoma to Illinois, Virginia, and Indiana and even down to Florida. No matter where the next job, I went along. Then in 1994, I became very sick. Every doctor that I went to guessed at what they thought was my problem. I had so many different diagnoses and a drug went a long with each one that I actually got sicker. In 1994, I could hardly walk, could not push the vacuum cleaner any longer, and just to stand or go to sleep became very hard for me. I would sleep most nights in my recliner. I was so miserable. Again I turned to the doctors for help, but nothing ever happened other than I got sicker from the side affects of the drugs. I no longer had a sound mind and that bothered me a lot.

That winter, we went back to Oklahoma for the winter break from work. I told my husband that I could not stand to make that move again in the spring. So I stayed home for the next five years while my husband went to work wherever his job took him next. The long trips would almost wipe me out. I would have to stop more often to get out of the car since sitting so long in one position would make me so stiff, I could hardly move once we stopped the car. The pain was really almost too great to bear. So I stayed in Oklahoma going to any doctor that

seemed to be help for a while. But I always seemed to stay sick and the pain would just get covered up by the drugs.

One day I decided to get off all drugs. I decided that I could not possibly be sicker off drugs than on drugs. That was June of 2000 that I made my decision. My Bible tells me that God doesn't give us the spirit of fear, but love and a SOUND MIND. Since I no longer had a sound mind that God said He gave me, I just had to get off drugs. I started to feel better mentally and physically. For the first time in years I had a sound mind. I developed colon problems somewhere along the line and could not live a normal life because of diarrhea controlling everything I wanted or needed to do. My husband retired in 2000, so he was home to do all of the running to town to do things that I could not do any longer without anti-diarrhea medicine helping me. I took so many boxes of anti-diarrhea medicine that some times it did not work very well for me. I prayed for years that God would send help for me and He answered that prayer in 2001.

My husband listened to a tape by Dr. Stan Monteith when he interviewed Joyce Riley, and he brought the tape to me and told me to listen because this could be the answer to our prayers. Needless to say, I took action write away and got started with Miracle II neutralizer drops (7am. to 7pm.). In about ten days, I told my husband that there was something happening. I couldn't put my finger on it, but I was starting to feel better. In about 14-16 days, my diarrhea was gone. I could hardly believe what was happening to me, but I was finally free from this horrible thing that had controlled for such a very long time. I started getting stronger and MII gave me so much energy that I was amazed. One day while I was busy making up our bed, something seemed to be wrong. What was wrong was I was making our bed. I hadn't done it for so long because I always ended up getting back in bed.

My husband asked if I felt like going to North Carolina to see our oldest son and his family. I said, "Yes!" and we left the next day for 2300-mile trip. I drove all the way their and all way back. There was no problem driving and sitting that long time. The rest is history. Thanks to answered prayer and MII, I'm now better than I've been in many years and I have a lot of my family using it and they are delighted too!

Sharing Miracle II Truths,

M. H. Frederick, OK

This summer I went blueberry picking with my 68 year old friend, and I had brought along a couple of bottles of Miracle II moisturizing soap, neutralizer and gel for my friend to try. I told her if she liked them she could pay me for the bottles, if not, she could just give me back what was left in the bottles and she owed me nothing. While we were picking blueberries, my friend was a captive audience as I was repeating to her all the testimonials I'd heard from Clayton Tedeton and from your show. My friend was extremely skeptical. I got so many ah hahs and disbelieving looks (and even to my own ears some of them sounded so fantastic) that even I was beginning to doubt MII. But in the end she said that she would try the stuff. She said, "What have I got to lose?" I laughed and said

to her that's just what Clayton says, "You've got nothing to lose but your troubles." The next afternoon at 1:42pm, I received the following e-mail from my friend:

I know you're going to laugh. I have been using Miracle II soap all morning. I cleaned the stove, the refrigerator and the cabinets; then, I started on the bathroom. I'm not finished yet. We had the neutralizer for breakfast and I just took a shower with soap and washed my hair with it. How refreshing! I've already told some of my friends about MII. So far I replaced Spic & Span, Comet, shower gel, anti-itch cream and laundry soap. I'm just amazed!

Ever since her first day of using MII, my friend has been a big fan. She takes a tablespoon of the neutralizer every day and uses the soap for bathing and household cleaning. Since she first started using MII, her cholesterol has dropped 49 points from 256 to 207 (and she expects it to continue dropping). My friend's hair is slowly turning color from gray back to its original color, and her hair, which was dry and brittle from too many permanents, is now soft and lustrous again from using the soap as a shampoo and the gel as styling gel.

Her knees would become so excruciating painful that only cortisone shots would relieve the pain. Now when the pain starts up, she smears her knees with gel every two hours, four times in a row and the pain goes away 4 weeks at a time. When she gets leg cramps, the gel causes the cramps to go away in a flash! Tag warts have fallen off her neck. My friend has told all her relatives about MII, but only one has tried it, but LOVES it!

M. A.

Lansing, MI

I wanted to let you know how Miracle II has worked for me. My six-year-old son has had severe congestion since we adopted him. Well, since he was born he as suffered from asthma, ear infections, hearing loss, allergies, and a birth defect, which causes him to have a speech impediment. Before we adopted him they pumped him full of antibiotics on a regular basis.

After we adopted him we refused to allow them to give him antibiotics. One time we had to take him to the emergency room for a severe rash. They recommended we take him to the pediatrician the next day. The doctor gave me antibiotics and didn't even look at the rash. He has all the symptoms of ADD and the school wanted us to take him to the doctor to get medicine for it. I took him to the doctor and told him what they said but told him I would not put him on medication for it. I ask him to check for milk allergies. That resulted in them drawing blood from his arm, which was quite distressing for him. It seemed unusual to me.

Usually every winter he would get a cold and be congested all year from that, until summer vacation was well under way. We live in Florida. It is very obvious that the antibiotics had destroyed his immune system.

Last year February 2001, I started using essential oils. But, because of his short attention span, I added Valor, White Angel and, then later, Peace & Calming. He got his first cold just before Christmas this year. I had gotten my first order of Miracle II, and I put the moisturizing soap in the tub just like bubble bath. I am thrilled to say that he recuperated from the cold and has not been sick since. He is doing much better in school, and he is able to stay focused for longer periods of time, and his hearing has improved.

I am thrilled with the results of MII. I had several small warts on my arm. I was using Cinnamon Bark oil on them because it is anti-fungal. Most of them went away after I added the neutralizer gel. I have a couple left, but I'm still rubbing the gel on them.

Here is something else which amazed me. I stumbled and lost my balance as I was walking into the house. I slammed my forearm into the door jam, and it hurt really badly. I knew that I was going to have a big bruise from it. I rubbed neutralizer gel on it and the pain went away immediately, and I never got a bruise from it. Just recently I bumped my arm in the same place and didn't do anything about it right away (I usually do). Well, it hurt and continued to hurt until I finally put some gel on it and in about five minutes the pain stopped. When I first bought MII, I had a cut on my finger, which I just put a band aide on. Since it wasn't a bad cut, so when the old band aide came off, I didn't even put on another one. After a week it hadn't healed and was a bit sore because I kept rubbing it with my thumb. When I put the gel on it, the soreness went away and it healed up and disappeared within a couple days.

I used the soap on some stains in a shirt of my six year old. I was getting ready to use it for every day plays wear because the stains would not come out. I rubbed in some MII soap with a scrub brush. It was a bright yellow shirt. Well it looks much better now. I think one more treatment and it will be as good as new. I am a firm believer in Miracle II products.

Sincerely,

J. A. Dade City, FL

I am sure you receive tons of testimonials. But my husband and I are very pleased with this product. We have been brushing our teeth with it and washing our hair and everything you said it would do it does, I wanted to tell you that brushing my teeth with it has helped me to cut down on my smoking and hopefully I will be able to quit. A cigarette tastes so awful when your mouth is so clean. I also have very thick and course hair, and thought no way can it be soft if I don't use a cream rinse, wrong! I now have the softest hair I have ever had, really that is no lie. I can't even believe it. I've also been drinking it and feel great, I have more energy and also feel happier, I don't care what's in it all I know is it truly works and I can't imagine anyone that uses it not reordering like I am doing today, I won't ever be without it.

I have never used a product that I felt compelled to write about but this is a super soap. I am trying to get my children to try it and have given them some of

the first order I got but it is hard to get them to break the toothpaste and shampoo and cream rinse habit. I will make them try it if I have to stand over them. I thought just by seeing and feeling my hair would do the trick. And what a savings it would be for everyone. Tell everyone I said get it and try it and if you don't like it, I will buy it from you!!!!

We listen to your show some times twice a day and if it's a rerun we don't care we just think maybe we will catch something that we missed the first time. Would also like to thank you for all your great info and kept it coming.

Thank you and God bless you both,

B. and D. B.

Well I'm sending in my order for Miracle II. It's just great. If you could just see my fruit trees. They have bloomed And so much fruit I've never seen before on my trees. I have pear trees that never bloomed, this year they are in bloom all over clear to the top. I just sometimes can't believe what I'm seeing, but this sure makes a believer out of me.

Love you both,

D. K.

Benson, A

A short Miracle II testimony. My husband and I are hot pepper fanatics and often cook meals that have a bite to them. Last week while chopping habanera peppers, which are the hottest peppers, my husband forgot and touched his eye, and it was burning like crazy. I told him to grab the spray bottle of neutralizer and see if it helps. Well, he sprayed neutralizer in his eye and almost immediately the burning stopped! I am amazed because I have done the same thing and water does not even begin to quell the burn until you have used gallons and even then you still have to wait until the burn subsides. This stuff constantly amazes me!

Very Sincerely,

I HAVE to tell you this. Over a month ago, my '87 Ford had a tune-up. A short time later when I would start it, it would cough, wheeze & spit, then die. I used fuel injector cleaners, deicer fluids, etc. When I received my Miracle II starter kit, I placed an ounce of soap & neutralizer in the tank, and my Ford has been running just fine! I am a believer!

Your Friend,

M. L.

Eaton, OH

Miracle II is unbelievable! As you know I use it for my RSD and have received symptom and thus pain reduction from its use.

I couldn't resist though, when Dave told about using it in the gasoline of an old vehicle. I have a '78 Chevy truck and for the last four years, if I don't start it for three days in a row in warm weather, or any day in cold weather, then I have to open the hood and stand on a box (I'm 5'2) and pour gas through the carburetor to get it to start! I was told a new carburetor would cost \$400.00, which I can't afford. So, I thought what the heck, It's worth a try. So I filled the tank, added an ounce of the neutralizer & soap. By the time I used half a tank, cold weather hit. It went down to the teens overnight, and for four years I know that I'm going to have to put gas in the carburetor. Well no more! I pumped the gas pedal about ten times, then turned the key, and it fired right up! Not only that, but it runs smoother! It's like I had a tune-up! It used to shake and shimmy so hard at a red light that you could make a milkshake! Now it runs so smooth!

This is such a blessing, as the cold weather makes my RSD pain so much worse. Now I can just get in and go! Thanks for sharing this use for Miracle II! As fantastic as it may sound, it really works!

Sincerely,

J. R.

Evansville, IN

Okay, here goes. Our health has greatly improved. Sleep patterns are better, and our mental outlook is calmer in these troublesome times. Miracle II seems to balance the body and boost the immune system against constant bombardment. The taste buds are more discriminate. We drink one ounce of neutralizer in water a day. We add it to our Big Berky and the three pots of water. We spray it in our eyes, ears and nose, and our eyesight and hearing are better. It's great on our hairbrushes! All of our "coats" shine! We brush our teeth with the soap and gel. The gel is really good for gums, sore throats and stomachaches; and I used the gel to dissolve a troublesome mole. The gel works wonders on cuts, scrapes, bruises, burns and sore muscles. The hands, face and feet love it!

Sincerely,

R. & L. M.

LaPorte, CO

I used the laundry ball the other day, and the wash came out beautiful! I used 2 tablespoons of soap & neutralizer. Is this right? I have been using the Thaistone for two years and they really work! I got rid of all the laundry junk and what a savings!

God bless you,

H. L.

Fredericksburg, TX

Thanks to Miracle II and 4 Today, Jan and I have been able to help my sleep apnea, Charcot-Marie-Tooth Syndrome, fibromyalgia, spinal stenosis and my Diabetes. My doctor took me off all my medications, even my high blood pressure, too! MII has helped my carpal tunnel and I don't know longer have to wear my wrist brace. I no longer have degenerative spinal cord disease. One of my big problems has been my heels, which would have led to major surgery. MII has helped my body!

Thanks,

Wes

Maryville, TN

Let's see where to start. My husband is the big Miracle II user. He has psoriasis on his scalp. It is not all cleared up, but it is better and getting better. NOTHING else works on it...NOTHING! We have tried every thing on it, too. He has had a cyst in his leg for over twenty years about the size of a large marble. He's been rubbing the neutralizer on it every day for about a month or so. The cyst is now the size of a small pea. Now this thing is under the skin, not on the surface, but I guess the neutralizer just goes down in there and does its thing. He has veins on his feet that are so numerous (varicose veins) that it looks black. Well with the neutralizer, they have been going away. He rubs it on his abdomen twice a day because he says there's some reason that his lower abdomen pulls on him and makes his bending over worse and makes his back hurt. So, he rubs it on both and it is helping more than the chiropractor...how about that! He drinks neutralizer every day and bathes in the soap.

As for me, I don't have quite as many troubles, but I've only been using the soap and it's the only stuff in the whole wide world that cleans my black cock top stove and gets clean, and leaves no haze. Every thing else leaves a haze. I also wash our hen eggs before I put them in the refrigerator, because you're not supposed to use hand antibacterial soap. I needed to order gallons because like you said, "it keeps you from running out because you don't want to run out.

God bless you both,

C. A.

Right now we're trying a combo of Neutralizer and soap soaked into our old horses grain to see if it will work as a wormer- we'll let you know about that one. Also, we've found that the neutralizer is the only thing that removes the incredible odor of our goats!

Miracle II has truly been a gift from on high! He truly deserves all of the glory for providing this to those who believe in him and in his power to heal! Good Soap too! I think/ believe that any other Vietnam Veteran who has had the problems as a result of Agent orange would definitely benefit from Miracle II. I am now almost able to be physically active for close to a full day as a result of using the product for the past few months. Almost all of my symptoms and problems have either disappeared, lessened, or are in remission! I have cut and split about eight cords of fire wood and am going to try to do at least that much more before the snow gets too deep! I would not have been able to even think about doing this 6 months ago. Thank you both for providing the soap and neutralizer to me- it has changed my life!

I am about out of everything again and I hope that I might be able to get some more from you. You two are the only folks that have ever run across who truly help veterans who need it. Bless you both for this!

I have tried for years to give up smoking and have never been able to do so. But with the help of neutralizer and lots of prayers it is possible!!! It really does work! The deodorant stone works great!!!

Thanks again for all that you have done for me and all other veterans!

In Yeshua's name,

Ray

Oroville, W

I ordered your start up package last spring. My neighbor had surgery on her leg and it would not heal. Her leg had a red rash and itch on the surgery cut. She was miserable. I gave her 4 ounces of neutralizer, and told her to spray it on as often as needed, she could not overdo. It cured her leg right up! I burned my hand and grabbed the neutralizer and sprayed my hand. The pain stopped immediately and no blister or redness. I got a spider bite from an ugly spider and I had a big red bump and lots of pain with a red stripe 1 inch wide and 4 inches long before I took off my shoe and sock and looked at my foot. There was a spider in my sock. I soaked my foot in Epsom salt water, then sprayed Miracle II on it two or three times a day. The pain left immediately and in 3 days it was well. My grandson has

Acne, my daughter has psoriasis, my nephew had leg surgery, and I gave all my Miracle II soap, lotion, and neutralizer away except 4 ounces of Neutralizer. I listen to you and Dave everyday, so I am well informed. Thank you both. I love to hear Dave do voices.

Love you both; may God bless.

A. D.

East Prairie, MO

One of my Cats got his paw caught in a fence and got a scrape on the paw. It looked OK at first and then it swelled and got infected and I thought I would have to go to the Vet. Well, I put the neutralizer gel on it and by the next day the infection was gone and his paw is now healed. I have been putting neutralizer in the drinking water for my dogs and cats. My elderly Springer Spaniel has been more active and energetic (she's 13). My nephew, who has Klippel-Trenaunay-Webber syndrome, has benefited so much from this stuff. He has massive hemangiomas on his legs and torso that tend to break and bleed or get infected. Plus he has been in the hospital so many times over the years for horrible infections and had so many antibiotics that we worry they will wind up being ineffective in the future. Since I have had him bathing in the soap and drinking the Neutralizer and putting the gel on the Hemangiomas and ulcers he gets, the effects have been incredible!! He has now set a record for staying out of the hospital!! Before Miracle II we could count on him going to the hospital or getting an infection every couple of months. He has not been sick since May!!! There have been a few times when he felt he was getting sick so he drank some more neutralizer and he would feel better in a short amount of time. I am also giving colloidal silver along with Miracle II. What was really interesting was what the soap is doing for his legs.

Thanks,

N. O.

Green Lane, PA

Thank you for introducing us to Miracle II products. It's used around our home daily. I especially like to use the neutralizer in my eyes, which are constantly dry and always getting something in them. The gel + moisturizer have helped my dad's leg which as recently begun to have open sores- the skin is very delicate due to a severe burn he received in 1968. My mother was started to use the soap as well.

Thank you,

T. D.

Smithfield, PA

Mark [my husband] is a veteran (Marines) and he's had severe trouble with rashes on his hands & feet, (so bad he'd be bleeding in his socks, & fingers would crack open, etc...), that would keep him from being able to work. We have been to several doctors & every time they would put him on steroids & antibiotics. This would clear it up for a few weeks and it would come right back, he also had a bad case of shingles this summer.

This is all history now, as the miracle II has cleared this all up. Thank you both so much.

Much love, sincerely,

A. R.

St. Puryear, TN

I am a Persian Gulf veteran and I have been ill since I came back from the Persian Gulf War. I have enjoyed your Miracle II products. It really works on the rashes. I have since then, seen improvement in my skin. My mother whom has cirrhosis of the skin uses the product herself and was amazed at the improvement it made. For the longest time doctors could not find a solution on how to help her with her skin problem. Since you sent me a booklet with Miracle II I noticed my mom's skin problem in it. And she wanted to try it since she saw me using it and it worked for her. Since then she has asked me to order some more for her.

I realize it's not a cure but it I tell people that it lessens the impact of some of the problems.

Sincerely,

T. V.

El Paso, TX

Just wanted to update you on how well we are doing. We have been using the Miracle II products thanks to you and your efforts we are getting healthier all the time. I hope you really realize how much we appreciate your efforts in making sure the Gulf War Veterans get help and are not forgotten. If not for your help and those that support your efforts, we would be pretty much without hope.

We have been using Miracle II and 4 Today for five to six months now and my wife and I both agree we are getting better all the time. I have not felt this good in years. Five years ago I did not believe I could ever feel this good again. No headaches, no intestinal problems, no kidney pains or spasms. My energy level is much higher and my endurance has improved. I am not 100% but I do feel 100% better than a year ago. I can actually remember what I did a month ago. Well just wanted to update you on our progress and to thank you once again.

God bless you and yours,

D. and H. S.

Kingston, MI

The Miracle II is truly a miracle. We've seen a great difference in our skin, hair, even our German Sheppard, Petie, can't wait to eat and he eats every bite of food. I squirt a bit of neutralizer in his morning food. He really seems to love it! My scalp always seemed to be flaky, especially during winter. Well, since using Miracle II my scalp is clean and my hair is squeaky clean! I love it. We know this product was created by God, you can feel it when you use it. We are so happy that you and Dave have introduced us to this. Thank you so much.

God Bless you both, we love you!

John and Melissa

I was in St. Louis, Missouri about 3 months ago when the sky was filled with chemtrails. I have been so sick for 3 months (serious respiratory problems, very tired, sleeping day and night).

Less than two weeks after taking Miracle II neutralizer (1 tbs. at morning and 1 tbs. at night), I was almost back to normal. Now I take 1 oz in the morning and night.

Thank you,

T. F.

Andmore, AL

My hand allergies are gone, my skin and hair look great, and I even lost a few inches. I have been using these products for almost everything as the directions call for. Thank you.

Sincerely yours,

J. S.

We are very pleased with all that the Miracle II products are doing! Snus and snoring problems have improved! I've not had to take the prescription, Flonase,

for almost 2 months. Skin conditions are clearing up, and energy levels have definitely increased.

Thank you for all you're doing,

G S. , McCaysville, GA

I am a heavy smoker (2 packs per day). I am doing what Clayton said and spraying with the neutralizer before I light up. Today I smoked 1 pack. I hope by Tuesday the 20th I am able to throw them away for good. My wife just loves the soap, neutralizer, & moisturizer. They are great products.

Sincerely,

R. B.

Sharpsville, IN

The Neutralizer cured a beginning sore throat in about 3 hrs. I had just gotten off penicillin a month before for a severe sore strep throat. I was very upset to feel it coming on again, but PRAISE GOD, it went away after spraying and gargling with neutralizer.

B. A.

Stockport, OH

love these products!! I do have a testimonial about the neutralizer. About 2 weeks ago one of my chickens somehow got injured and had a raw spot on her chest and an injured foot and I thought she would not recover- I put her in her little house & placed a dish of food and water with a good dose of neutralizer added. This chicken was pretty sore and miserable and I fully expected her to die that night- well, the next day, I went to check on her, and she was improving. I gave her more neutralizer and within a few more days she was walking around the hut. Now, a week later, she is outrunning around in the yard & the injured spot is healing very well.

God Bless you both!

N. O.

What a miracle! My husband of 40+ years has been in sales most of his life. It is near impossible to sell him anything. He is very skeptical. When our Miracle II starter kit arrived, he agreed to use it for 3 full months, before drawing a conclusion-negative or positive.

Well, it has only been a few weeks and he is a believer! He has had a jock rash (yeast infection) for years. He has used many prescriptions and everyday our bathroom has been powder filled from all the baby powder he used. His rash is completely gone!!!

Sincerely in Christ,

M. K.

Meadville, PA

I am sure you receive tons of testimonials. But my husband and I are very pleased with this product. We have been brushing our teeth with it and washing our hair and everything you said it would do it does, I wanted to tell you that brushing my teeth with it has helped me to cut down on my smoking and hopefully I will be able to quit. A cigarette taste's so awful when your mouth is so clean. I also have very thick and coarse hair, and thought no way can it be soft if I don't use a cream rinse, wrong. I now have the softest hair I have ever had, really, that is no lie. I can't even believe it! I've also been drinking it and I feel great. I have more energy and also feel happier, I don't care what's in it all I know is it truly works and I can't imagine anyone that uses it not reordering like I am doing today, I won't ever be without it.

I have never used a product that I felt compelled to write about but this is a super soap. I am trying to get my children to try it and have given them some of the first order I got but it's hard to get them to break the toothpaste and shampoo and cream rinse habit. I will make them try it if I have to stand over them. I thought just by seeing and feeling my hair would do the trick. And what a savings is would be for everyone. Tell everyone I said get it, try it, and if you don't like it, I will buy it from you!!!!!!!

Thank you and God bless you both.

B. and D. B.

I have had very terrible chemical sensitivity for years. As of late it has become even worse. I am not even able to use commercial dish soap to wash my dishes because it drives me crazy. It is so bad that on occasion my heart has arrhythmias while I am cleaning. However, upon discovering your miraculous products my chemical sensitivities can be avoided because I use them for just about everything around the house. Everything is immaculate and I thank you from the bottom of my heart for allowing me to have access to such a superb product.

Yours in Christ,

Charmaine F.

Our praise for Miracle II products is ... there isn't one word to describe how wonderful it is. It is a gift from God! Love the way the water feels in the bathtub and how good you feel after a bath, dog loves it too. Didn't object to the bath at all. The clothes come out wonderfully clean and feel "good"... We live out in the

country and the clothesdry out on the line outside. My husband is using it for help to stop smoking andhealth problems such as cholesterol, high blood pressure and he just noticed theother day his neck doesn't "creek" anymore since Miracle II. Me, well I'm usingit for weight loss and a low thyroid that's also swollen with nodules. It wasstrange when we got our first supply of Miracle II. I took a quick look in thebooklet for smoking, high blood pressure,thyroidand weightproblems asto how to take it and as if a voice in my head said Ishould rub some on my neck on the swollen thyroid area and lo and behold theswelling is almost gone!! I have an iodine injection test next week and I knowthe results are going to be pretty good. This stuff is truly a Miracle from God.There's so much more I can say about miracle II but better sign off. Thank youboth.

Sincerely,

L.&E.

Carpe Diem(seize the day), Hello from Brooklyn MI. This is Sarge S----man here, and I havea story to tell you all.

I had just received my start-up kit from you-all justthe other day, and started using it. At this point I need to fill you in on somebackground info. We, my wife Terry and I, have a 3 year old son, Lance, withDown Syndrome, and most people with this, have lots ofsinus and ear infections. They have small sinus and ear canals, plus have asomewhat suppressed immune syndrome.

Anyway, Lance has been fighting arecurrent sinus infection, and we have been battling with amapacillin andaugmentin drugs. When I received our kit I started Lance and I on theneutralizer right away, and then the soap. His infection has cleared up inless than two days. His sputum has gonefrom dark green to white to gone in less than 2-3 days.

I have also noticed that our septicsystem is working better than it has in a long time too. I then added 2 drops ofsoap to my laundry and I got sooo many suds that they ran out of the machine. Ineed to cut back to 1 drop!

I plan to put these items out in thespecial needs community up here so others may know the Power of the Lord GodAlmighty!

Respectfully Submitted.

R. S----man

Sgt. USMC (Ret).

Dear Joyce and Dave,

If you could just see my fruit trees!!They have bloomed and so much fruit I've never seen before on my trees. I havepear trees that never bloomed thisyear they are in bloom all over clear to thetop. I can hardly believe sometimes what I'm seeing. But this sure makes me abeliever.

Love yaboth.

D. K.

Benson, AZ.

We have used Miracle II for one week. We are very excited about the results we are getting from it so far. About 6 years ago my husband got chemical poisoning at work. In less than a week he was covered with psoriasis and had severe pain in his chest, which made him think he was having a heart attack. The doctors could never figure it out and just wanted to give him painkillers. We decided that wasn't good enough.

Through this we have learned to pray and depend on God to show us the way to fight this. Not only does he have this health problem but I also have very bad asthma. I have not gone back to the medical doctor since going in the emergency room over 3 years ago when I couldn't breathe. What they gave me damaged my kidneys and colon. I still have trouble with this to date. Now I pray when an attack comes on. Some attacks are so bad I can barely get a breath. My breathing is so bad I can't lie down at night because I feel like I am going to suffocate.

Just one week after taking Miracle II I can climb our stairs without gasping for breath after getting to the top. I don't have any fluid in my lungs anymore and can lie down at night and sleep great. I have probably had fluid in my lungs for a year and have bronchitis. Last winter I went over 6 months with bronchitis, this morning I realized when I was reading the Bible that I could really concentrate on what I was reading and didn't have the brain fog that I used to.

Everything in the house is clean. Even the dog! Can't wait to get next order.

Sincerely,

P. B.

We are very pleased with all that the Miracle II products are doing! Sinus and snoring problems have improved! I've not had to take the prescription, Fonas, for almost 2 months. Skin conditions are clearing up, and energy levels have definitely increased.

We also started taking the 4 Today vitamins. Heartburn and reflux were really beginning to be a concern for my husband. However, by taking the 4 today Ultimate with each meal the problem has been eliminated.

Thank you for all you're doing.

G. S.

McCaysville, GA

I just wanted to share with you how Miracle II has benefited me. While I have used the soap and neutralizer for about a year, I cannot proclaim anything that would qualify as a miracle. But now the most incredible thing I've seen M2 soap and neutralizer help has to do with my truck. Back in October, I heard Dave mention that he put an ounce of each (regular soap & neutralizer) in his old pick up. I have a 1992 Jeep Cherokee that has for six years has had an engine miss from an injector sticking on a cold start up when the temperature is below 30 degrees. After 3 to 5 minutes of warm up, the miss would subside. It did not seem to be a big problem for me, but I have tried numerous fuel system and injector cleaners over the years, to no avail. In early November, after thinking about it, I decided that I have nothing to lose, after all, cold weather was coming and the engine miss would be starting again. So, I put 1 ounce each of the Miracle II soap and neutralizer in the fuel tank along with 20 gallons of gasoline. It must have worked, after 6 gasoline fill ups, two months and 1500 miles later, I expect to hear the miss, but I've yet to hear the knock of the engine miss on start up.

Regular listener,

W. F.
