

People have a lot to say about Miracle II

AIDS

First of all, I would like to thank you for being here on God's earth, and thank the Lord for my ex-mother-in-law who's always been a wonderful person to me no matter what the circumstances have been. My name is Darryl W. Propes. I'm 38 years old and I'm infected with the AIDS virus. In September of 1988 I was hospitalized in San Mateo, California for spinal meningitis and told I was also infected with AIDS. My 3 doctors told me I had 3 months to a year to live. In the hospital I was given A.Z.T. For two weeks, I took the A.Z.T. drug. On the day of my release I told my doctor I didn't want to take A.Z.T. anymore, as I felt it would kill me.

They then advised me against it, but God told me "no". When I was released from the hospital I weighed 155 lbs. Within two months I gained 45 lbs. and started taking 3 different types of herbs. My red and white cells were down to 35, which is very bad. Good, or normal, is anything over 400. Trying to keep a positive attitude was and is, tough at times, but the Lord is seeing me through this and I have put my life in His hands.

In February of this year, I was hospitalized for having shingles, which is a nerve problem. It's very painful, and known to be AIDS related, in my case. While I was in the hospital, my ex-mother-in-law called me and told me when I got out of the hospital she wanted to see me to give me something that would heal me, that was of the Lord's work. That was in February.

In April I was supposed to start taking A.Z.T., because my T cell count was at 150 and my chance of getting sick were close. Against my better judgment, I agreed to take the A.Z.T. On April 21st I went to my doctor's office ready to take the A.Z.T. and she then said to me, "Darryl, you look like there's nothing wrong with you. So why don't we take a blood sample and see where your T cells are?" My doctor and I both knew before my shingles my T cells were 150. We both figured after the shingles and then having the flu they were probably somewhere at maybe 50 now. She sent in my blood tests on that Monday and when I returned the following Monday for the results and to start the A.Z.T., she laughed and said, "I don't know what you're doing, but your T cells have gone from 150 to 300."

I told her I was taking three different types of herbs and your Miracle II, 1 oz. a day. Today I feel like there isn't a thing wrong and I don't have to take A.Z.T. now. So, Clayton, whoever you are, thank you so much for helping me. If it weren't for people like you and my mother-in-law and, of course, the Lord's work, this world would be pretty sad.

My Prayers Always,

Darryl W. Propes/California

P. S. I also have some of my friends who are also infected with AIDS taking Miracle II.

Arthritis/Carpal Tunnel Syndrome/Bell's Palsy God bless you for your trust in the Lord! I have 4 believers plus myself that have started using Miracle II Soap and Neutralizer. A few months ago I couldn't have written to you where you would be able to read my writing. I have arthritis, Carpal Tunnel Syndrome and Bell's Palsy in both hands. I am doing better after starting on Miracle II. I am even crocheting again which I hadn't done for quite some time.

Evelyn Trambley/ Oklahoma

Bathe Dogs/General Cleaning/Deodorizer:

November 23, 1990

I met you this past October and was introduced to your fine product . I have always said that I would really have to believe in a product before I would go public with how great I think it is. The Miracle II products have my full approval!

The very first night that I had the Miracle II Soap cleaner, I bathed my dogs in it. The white hair on my dog was just beautiful. I then cleaned my stove and the bathroom and was well pleased with the results.

My family uses the Miracle II Soap to clean jewelry, mirrors, picture frames and glass. We use it on the Etagere shelf and what-nots, to mop the floor and clean the refrigerator. The Miracle II Soap took hardened scrambled eggs out of the skillet, as well as the dried milk in the bottom of glasses. My meat broiler pan came shiny clean. I have used this Soap in place of oil soap for cleaning antique furniture, for washing my child's cheerleading uniform and the white cummerbund to a band uniform. I use it in my liquid soap dispenser to wash our hands and I am fixing a bottle of the soap to take to the two year old Sunday School church room to use to remove crayon markings from the tables and walls.

Two weeks after buying the Soap, I purchased the deodorizer Neutralizer which was put to good use right away. I went to get some stored sweet potatoes out of a plastic bag. They were rotten to the point of juice dripping from them. This smelly juice got on my hands as well as the vegetable bin. The Miracle II deodorizer took the smell away. It is wonderful - I used it when my dog rolled in something smelly. I use the Neutralizer in my electric dishwasher in place of the Jet Dry and I mist my house plants with it.

I was thankful for the Soap and Neutralizer when one of my dogs had a really bad accident in several spots on an antique Persian rug. I was sick at heart when I saw and smelled the mess. The Miracle II was a miracle! Every spot came up and it left the rug so clean that I want to clean the entire rug with it.

This product has just been wonderful to wash the family's hair in and follow with the Neutralizer. My teenagers are using the two products to clean their face which has saved us a trip to the dermatologist. I will not be needing many of the store brand products. I am so excited about this product that I am buying a case so I can share with my family this wonderful find!

Mary F. Williams/Louisiana

Complexion

August 31, 1991

While visiting my sister in Louisiana this summer, we met you at a market and were immediately curious when we saw Miracle II Soap. We believe in miracles. God healed my husband of cancer. We purchased several bottles of the Soap and Neutralizer. We began seeing results in a very few days. My daughter is 17 and has the usual teenage complexion problems. She has been using

Miracle II regularly for six weeks and now is able to wear only a very light makeup base and at times uses no makeup. The change is remarkable.

Thank you so much for sharing this product with us. We now want to share it with others. May God Bless you.

Andrea Bryant/Virginia

Cut Toe:

On Sunday, August 16th, about 10:00am, my wife accidentally knocked the iron over and cut her toe. At the time it was stinging and hurting. I immediately put the Neutralizer on her toe. Around 4:00pm that day, she called me and said "Chad, look, you can't even see where it was cut." Surely it was a miracle how the product had worked. As God is my witness - that is the truth.

Chadrick Simpson/California

Diabetes/Eyes:

First of all, I give praise and honor to God, Who is the head of my lips and I thank Him for letting me be a part of God's wonderful healing.

I thank the Lord for my husband, who is always trying to find some product to help me with my many health problems. In August of 1992 I started using both the Neutralizer and the Soap. In a few days I began to feel better and look better. I have been ill for a long time. I am a diabetic - also blind in the right eye for two years, with pain in the right eye and right side of my head and neck every day. I also have limited sight in my left eye. I have been constipated all of my life and my skin was becoming dark and kind of hard.

After taking 1/2 oz. of Neutralizer in a glass of water for the last 3 weeks, my blood sugar is normal, I have more energy, and I have days now when there is less and less pain in the right eye and in the right side of my head and neck, and I can see better with my left eye. My skin is lighter and soft after using the Soap.

I really have to praise these wonderful products - they truly are a miracle from God. I would recommend these products to anyone needing a blessing.

Armanda Simpson/Wisconsin

Dog Flea Rash:

I had listened on the radio about the things that Miracle II could do. I was very skeptical. A friend had gotten some of it and I used it on my little dog who has an eczema from flea bites. It stopped the scratching and crying immediately and has saved me a lot of money on shots to stop the rash.

Thanking God and you,

Mrs. Carl Middleton/Louisiana

Dry Skin/Hair/Scars/Digestion

I am using this "God blessed" Soap and I believe with all my heart that God sent this to us.

My husband's legs were so dry that in the morning dry skin was on the sheets. After about two

weeks you could see less. Now, one month later, his skin is like a baby. Not only this, but I have soft hair now and never has that been. It has always been dry and very hard to handle and now I really like the feel of it.

I have scars on my hands from skin problems real bad and after one month my friends can tell that they are looking much better and show the damage less and less. I have problems with upset stomach and use the Neutralizer in my drink each day. I can now eat hot fo od - acid foods and not have a burn in my side and an upset system.

Millie/Louisiana

Hemorrhoids:

The first time I used the Miracle II products, my hermorrhoidal tissues returned to normal. Thank God! I will not need surgery. Miracle II is truly a miracle.

Rita Abel/Mississippi

Itching Problem:

About a month ago my nephew, Lloyd Johnson was visiting me and he was telling me about Miracle II products. Since I have had a very bad itching problem over my entire body, I have decided to buy a pack of the Soap and Neutralizer and within 24 hours the itching stopped and I could see a world of difference. I have told all my friends about Miracle II products and will recommend this product to anyone with skin problems.

Bill Rachel/Louisiana

Leather Skin:

March 20, 1994

My wife and I have thoroughly enjoyed Miracle II products. The Soap has done wonders for my old leathery skin and also my hair. My wife uses the Neutralizer not only for skin care, but takes 2 ounces a day with juice. We both feel Miracle II has made us healthier. Thanks.

James M. Gill/Florida

Odors: October 23, 1990

Thank you very much for your interest in and support of "Lady Bass" and for helping make our Classic a success!

Thank you for "Miracle Odor-Go"! It really works! I guide on our home lake so I get a lot of use out of it. Thanks a lot!

Mary Satterfield/National/World Champion - National Angler of the Year/Illinois

Pet Odors/Fleas/Cleaning

I am sorry it has taken me so long to write you and tell you how much my family has enjoyed using Miracle II. We have found that Miracle II is good for all types of cleaning. We use it in the bath and bathe our two dogs with it. We have found that Miracle II neutralizes pet odors, and flea problems.

We also use Miracle II to clean our stove, and other kitchen areas. It easily cuts through grease, grime, and dirt leaving all surfaces clean and deodorized.

I join with you and give God the Glory. May you be blessed in your endeavors for our Lord, and follow His leading. I especially enjoyed reading your testimony and how you received the formula for Miracle II.

Now unto the King eternal, immortal, invisible, the only Wise God, be Honor and Glory for ever and ever. Amen. 1 Timothy 1:17.

Herb Otwell/Louisiana

Skin Cancer:

I have had skin cancer since age 21. I have had as many as 46 at a time burnt off and they all came back. But since using Miracle II, I have been clear of them and my skin is smooth and soft for the first time in years. There is really no praise high enough to give this really marvelous Soap. It truly is a Miracle. I would recommend it to anyone with any kind of skin problems.

You have my permission to use this letter as I feel everyone should be advised to what a wonderful product you have.

Lloyd Johnson/Texas

Toenail Fungus/Insect Repellent/

Sunscreen/Mouth Ulcers:

My name is Rachel Gunn and I am a registered nurse.

The first time I heard about Miracle II Soap and Neutralizer, I had a fungus under my toenail for 3 years. I had been to 3 dermatologists - spent a lot of money on office visits and a lot on medicines that did not help. So, I decided to try yours, but I decided to try the Soap - one drop on toenail and massage around toenail and leave on - twice a day. In 6 months the fungus was gone and toenail looked normal again. I continued this for approximately 1 year because fungus are notorious for coming back. It's wonderful having normal toenails again - thanks.

Last month at the flea market in Flower, MS I bought more and decided to really give it a try. I started bathing with the Soap, using it as a shampoo and shaving cream. It is wonderful. How did I get along without it before? My husband also tried Miracle Soap and the shampoo and he couldn't believe how good it made his hair feel. It's wonderful having one bottle in the shower - it made my skin so soft and really clean. My hair is so shiny - I can't believe it. The Soap as a shaving cream really shocked me - I can't believe how soft my legs are - and it helps to keep my tub clean.

The Neutralizer is wonderful - I first used it as a sunscreen and it was Great - No burning! I also used it as an insect repellent and it's wonderful!! If someone has a sunburn, rub a little Neutralizer on and it takes the burn out - we tried it! If you already have insect bites - put Neutralizer Gel on them and it will take the itch away - it really worked!

My daughter and I had ulcers in our mouth. We tried the Neutralizer in our mouth and held it a while and it took the sting out. Also, I dipped a q-tip in the Neutralizer and rubbed it directly on

the ulcers - it was great - what a difference. I also put the Neutralizer in a spray bottle and spray it on my hair before I dry it - it's great! Thanks so much!!

Rachel Gunn/Mississippi

Sore Buttocks:

I have been using the Soap and Neutralizer since July and like the results.

My husband, who is in a nursing home, has a skin problem. His buttocks was so sore and raw and they were having trouble healing it up as he scratched so much. I carried half a bottle each of the Soap and Neutralizer to the home and asked the nurse if they would use it, so they got permission to do so. After the first application, they were amazed at the results. It was not as red and the itching has stopped. Thanks be to God! Some of the nurses said they would like to have some of it.

Dorothy Downey/Louisiana

Soap/Cleaner/Degreaser/Deodorizer:

I came home today to find a fourth of my carport covered with FIRE ANTS. There were so many of them I felt terrified. I immediately filled a spray bottle with water and approximately 2 to 3 oz of Industrial strength Miracle II. I sprayed on the ants, found the main bed and sprayed it. Within several hours all ants were dead.

As long as I live I will thank God for giving you the vision for this formula because it is all you will need in your home. It cleans, deodorizes, and degreases any surface.

Faithfully yours,

(Mrs.) Betty R. Dean

Toothache:

I used some of your Neutralizer for tooth pain on Sunday evening. At this writing it is Wednesday and I have not been bothered by the pain since I used it on Sunday. My mouth had been hurting so bad - the whole left side hurt. I couldn't tell which tooth was hurting. I was surprised and relieved your product worked so fast and has lasted so long. Thanks so much for your wonderful product.

Debbie Terral

Teeth Stain:

My husband brushes his teeth with this and it has taken the brown stain from smoking away. We were just about out of it and we don't want to use anything else. We feel and smell cleaner, even after 12-18 hours of outside work. We feel clean and know it is God's work - we love it.

Thank you - Bless you - Praise the Lord for all!

Velva Housworth/Texas

Warts

Hello, I'm 16 years old and I had warts (15 of them) and I could not find something to get rid of them. I have had them for several years. I moved down here from Colorado to live with my aunt

and grandmother. That was when I was introduced to your product of "Neutralizer." My grandmother kept trying to get me to use it, but I didn't have faith. Then I started using it like a daily lotion and about 2 1/2 week later my warts went away. You can't hardly tell they were there. I wear rings and now it's easier to put them on and take them off. Thank you so much, and God Bless you all.

Sincerely yours,

Jennifer Meads/Louisiana
