

My name is **TERE ARCE DE SEGOVIA**

I am from Monterrey, Mexico.

Tel. (210) 568-3585 Ext. 134

Here is my testimony of how a natural product helped me with my M.S. (Multiple Sclerosis).

In 2003, I have had M.S. for about 21 years. Even though, I was diagnosed M.S. in 1992, I have felt this illness since 1982. In my early stages of M.S. it was very difficult to diagnose (the M.R.I. Studies or Cat Scan Studies did not exist back in 1982).

I had multiple symptoms, and some of these were: Chronic fatigue, double vision, migraines, yeast infection (every week for 21 years), went blind on one eye a couple of times, I was very clumsy (breaking crystal glasses, hitting chairs and could not walk properly), slept most of the day, and you get the idea. I could not perform my chores of things to do at home.

I have always said: “When the mother of the house is ill, the entire household is ill”.

I had taken everything that the doctors told me to take (Beta Interferone – which make me very sick, because my body could not tolerate these injections), also took Copaxone (very similar to Beta Interferone, which, my body could tolerate a little better), and I did not see any improvements in my health.!!!

Some friends had suggested bee stings which I know that for some people has helped but I didn't want the stings, I was having enough pain already, and other silly stuff, including Urine-Therapy (which I did not do).

Medical expenses ran steep, and let me tell you that we were broke.!!!

In May 10th. 2003, my husband DAVID SEGOVIA-KANE came home with a product made out of rice (yes, rice) that changed my life and my family's life forever.

The name of this product: “Alfa PXP Forte”, and is marketed by ENZACTA.

When he showed me the container with the “**Alfa PXP Forte**”, I almost laughed at him. And I told him that they “pulled your leg”, that a nutritional product can't help you with a metabolic illness or disorder.

I have heard many things that people say (many on TV) of products that work, but really they do not work at all. And certainly, they could not work with a Chronic Metabolic and Degenerative Disorder, like Multiple Sclerosis. It just does not work like that.!!!

But I saw David (my husband) so excited with this product, that, I just had to give it chance. The truth is that I felt that I was having the equivalent of a chamomile tea, or powder “Rice Krispis”.

I started to take the “**Alfa PXP Forte**” because he insisted, and because the “**Alfa PXP Forte**” did not taste bad at all. But I was sure it wouldn't help.

But how wrong I was.!!!!

David (my husband) says, that thanks to **“Alfa PXP Forte”**, he’s got his wife back.!!!

My life has changed completely. And not only my life, all of my family’s life, has changed for the better.!!!

I did not remember what HEALTHLY meant.!!!
Since I had been sick for more than 22 years.

The changes that I have had since taking the **“Alfa PXP Forte”** have been many. Back then, when I had the M.S., my day did not had these many hours; because, with the M.S., my normal day started at around 11:00 a.m. and I had to go to bed at around 6:30 p.m., mainly because of my chronic fatigue. Now, my normal day starts at around 6:30 a.m. and I can go up to 11:00 or 12:00 p.m. with no trouble what so ever.

Now, I am active, happy and with many satisfactions.!

Really, my life and the life of my family has changed (for the good) tremendously.

It has changed so much, that my husband David and I, feel that we have not only a moral obligation to share these benefits with all the world. But we have an obligation with God, to share our experience with everyone that listens to us.

We are so blessed that Mr. Russ Hall has brought these products to us. Yes, because ENZACTA has 6 wonderful products in Mexico (4 of these are now available in The United States).

As David says, it will not only help your body to heal, the Company (ENZACTA) and these products will also heal your pocket health. Because, there is a great business behind these products; and this is mainly because you will not spend as much money in medications as before, since you will get your health back.!!!

These products are UNIQUE.!!!
Because they WORK.!!!

I recommend that You take the **“Alfa PXP Forte”**, because I am sure that it will help your body to heal itself.

You don’t have anything to lose.!!!
So, please ask your friend that brought you the **“Alfa PXP Forte”**, how to take it.

A recommendation: Be constant and have discipline taking the **“Alfa PXP Forte”**, and keep taking it for around 90 to 120 days. You will see the results (Great Benefits). Every single person is different, and because it a 100% natural product, you never know how it is going to help nor when but one thing is for sure, IT WILL HELP YOU.

Thanks to ENZACTA’s products for letting people live better.
The MISSION of ENZACTA is to ENHANCE HUMAN LIFE, and they are doing it.

God Bless You all.
